Hi Alice,

That's fine, I'll see if I can think of some risky questions!

Hi Beth,

I've just uploaded the document with new questions. I found it quite difficult to find any spicy/risky questions, but managed to find some really interesting imaginary scenario questions. So please feel free to find some more risky ones if you can. I do believe that most of the questions I've found have a good replay value.

I'm afraid I won't be able to finish my tasks that are left, I'm a little behind on final project work so would like to focus on that today. I'll make sure I finish the tasks before our next playtesting session.

Thanks,

Alice
