Hi Alice,

Thanks, I will upload the word document we made about our psychographic and demographic info tonight along with my MDA for games I've played.

Beth

Hi Beth,

Chris has sorted out our GitHub now, so I've just organised the folders and uploaded meeting minutes from Monday, the MDA analysis table we did together on Monday, my personal research/MDA analysis for other games (I chose Hive, Zombies!!!, Cards Against Humanity, and The Voting Game), and the reading resources from our first year in non-digital design.

Looking forward to discussing our ideas on Friday!

Alice

Hi Beth,

Just to let you know I've created the tasks on Jira, but I'm having trouble finding out how to add time tracking to the tasks. Unless you're able to work this out, I'll email Chris for help tomorrow morning. When this is sorted I'll move the tasks into a sprint as soon as I can. I'll also write up the meeting minutes and upload them to GitHub tomorrow.

Thanks!

Alice
